

RECOGNITION OF ACCOMPLISHMENT

The Board appreciates the diligent efforts made by its members, staff, student body and citizen volunteers in achieving excellence. The Board is mindful that occasionally there are exceptional accomplishments and contributions made by persons representing our schools, which reflect favorably on the District.

It is the Board's intent to grant official recognition for these accomplishments. Notification of meritorious deeds or conduct should be forwarded to the Board or Superintendent for consideration.

Recognition may be provided in the form of a letter of commendation from the Board, an official proclamation of achievement passed by the Board, a public ceremony or presentation, or such other recognition as the Board deems appropriate to the circumstances.

Adopted: December 11, 2002
