

SCHOOL PROPERTIES LIQUIDATION PROCEDURES

The Superintendent is authorized to liquidate school property as the need arises, after Board review. Capital or other objects that may be of public interest will be liquidated through public auction or sale. Such auction or sale will be noticed in at least the local newspaper for two consecutive weeks immediately prior to the auction or sale. The School Board will approve the list of items to be offered for public auction or sale prior to such liquidation, and will be provided a report following the liquidation by the Superintendent or his/her designee.

Non-capital items that are not of public interest or are completely beyond educational use may be destroyed at the direction of the Superintendent or other administrators.
