

FIRE DRILLS

1. Frequency

Fire drills shall be held in each building in accordance with state law, unless due to weather conditions a satisfactory day cannot be found.

2. Method

Order rather than speed shall be stressed in fire drills. Definite instructions shall be furnished to teachers and pupils as to route and manner of exit during fire drills by building principals. Fire drills shall be held without warning.

3. Safety Measures

Every teacher shall be familiar with the location and operation of fire extinguishers in the building and shall be informed regarding the location and operation of fire alarms.
