

INTERSCHOLASTIC ATHLETICS

The athletic program in the School District is recognized as a vital part of the total educational program. The Board feels an athletic program, properly operated, provides experience in daily human relations, which cannot be found in any other educational contact.

The athletic program should be designed to give many students an opportunity to develop their interests, attitudes and skills for future years, without damaging their academic development. Sports competition should provide a healthful, enjoyable experience whereby the emotional, mental, social and physical development of young men and women can be fully achieved. Sportsmanship should always be of prime importance.

Student athletics must comply with all rules and regulations established by the WIAA and the School Board.

The School District shall not discriminate in student participation in athletic programs or activities, standards and rules of behavior, disciplinary actions or facilities usage on the basis of any protected category under Wisconsin or Federal statutes.

Interscholastic Code of Conduct

The School Board recognizes that interscholastic competition can be a great contributor to human growth and development, as well as the growth and excellence of the educational institution. Therefore, in the interest of promoting exemplary activities during interscholastic competition, the School Board endorses the promotion of conduct adopted by the Rock Valley Conference.

The School District shall not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions or facilities usage on the basis of any protected category under Wisconsin or Federal statutes.
