

Controls Technician

This is a technically challenging, hands-on position that requires strengths in industrial automation, process controls, troubleshooting, and related IT tasks. Successful candidates will need to work closely with all departments and be able to adapt and make decisions quickly.

Job duties include PLC programming, controls integration, and electrical maintenance.

Proficiencies in Allen Bradley and Siemens controls, automated process and packaging equipment, and data acquisition systems are desired.

Position is Full Time Afternoon Shift with one weekend per month on-call.
